Education

Siddaganga Institute of Technology
Bachelor of Engineering, Computer Science

2022 – 2026

Technical Skills

Programming Languages: Python, Java, C

AI / ML: Supervised and Unsupervised Learning, Model Training and Evaluation, Feature Engineering, RAG, AI Agents, Multi-step Reasoning, Agent Workflows, GRPO

NLP & LLMs: Transformers, Embeddings, Prompt Engineering, Function Calling, Vector Databases

Libraries & Frameworks: NumPy, Pandas, Scikit-learn, Hugging Face Transformers, CrewAI, LangChain

Developer Tools: Android Studio, VS Code, Google Colab, Jupyter Notebook, FastAPI, Git, GitHub

Computer Science Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems

Projects

Red Team vs Blue Team Security Simulator

Python, Streamlit, RAG Agent, State Machine

- Simulated adversarial attack-defense cycles in a controlled mock system.
- Implemented a multi-round attack, detect, and mitigate loop with scoring.
- Utilized a RAG agent as a referee to evaluate structured event logs, detection latency, and breach scores over 10-round simulations.

Slack Co-writer

Python, Flask, Slack API, Notion, Gemini Function Calling, OpenAI Client

- Built an intelligent chatbot using LLM function calling to understand user intent.
- Generated tailored content based on user requirements.
- Automatically created and updated notes in Notion.

AI-Enabled Smart Recommendation System

LangChain, Python, Vector DBMS, Composio, Sarvam AI

- Designed a smart agent to analyze food cravings and suggest suitable dishes.
- Provided multiple recommendations along with calorie count and health benefits.
- Supported responses in the user's mother tongue.

Communities

AI Brewery

2024 – 2026

Co-Founder and Vice-Chair

- Leading young and enthusiastic minds who want to make cutting edge AI Agents.
- Involved in participating in Hackathons and Company events all across India..

Club of Robotics, SIT

2022 – 2026

App Lead and Expedition Lead

- Designed and deployed networked robotic systems using wireless communication.
- Organized ROBOCOR'24 25, a national-level robotics event with 1000+ participants.

Achievements

- IoT Track Winner at NMIT HACKS 2024 (48-hour national-level hackathon).
- Third place at Metadom Hackathon organized by Metadom.AI, sponsored by Google Cloud.
- Winner of Browse Hyperthon April 2025(6-hour national-level hackathon)..
- Participated in AI Agents Hackathon by August AI, sponsored by Microsoft Startups and Sarvam AI.
- Top 10 finalist at Mercuria Hackathon organized by Mercuria.
- Participated in 10+ hackathons and robotics competitions.
